# DISTRIBUTION OF FAMILY INCOME IN 1979

# BY AGE OF HEAD OF HOUSEHOLD

1980 Census of Population and Housing

Sample Count Tables for

The State of Connecticut

Format: This report is divided into the following sections by geographic area:

Section 1. State of Connecticut
Section 2. Counties
Section 3. Municipalities

Within each section, data for each geographic area is summarized by a set of 3 tables presented on one page. Within each of the sections, the pages are arranged in alphabetic order by the name of the area. The area which the tables describe is indicated at the top of each page; for example: AREANAME: HARTFORD COUNTY. Pages in this report are numbered in sequence.

Footnote: The appropriate notes are listed at the bottom of each page.

Table Numbers: The three table numbers listed in the heading of each page refer to the table numbers from Summary Tape File 4 from which the data has been selected.

Sample Counts: The data included in this report are taken from "sample counts". Only a sample of households were asked questions regarding their income. The percent sampled varied for each municipality. The Statewide sample was approximately 16% of all persons.

NOTE: These figures indicate the distribution of families with income by the age of the head of household (householder) among various income levels. A family is a group of two or more persons that are related by birth, marriage, or adoption, and who live together as one household. Therefore, persons living alone, or in group quarters, or unrelated individuals are not included in this table.
